DETAILED ACTION

Claims 1-23 are pending in this application.

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-12, 16-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

These claims define R1 and R2 to be aromatic group and aromatic like group. It is not clear as to what is contemplated in "aromatic like group". Is naphthalene an aromatic like group? If yes, then why naphthalene is also separately claimed?

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 3-4 and 9-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Chen et al(Organic Lett., 2002).

Chen et al, page 1108, compounds 1-4 anticipate instant claimed compounds, especially when n is 0, or n is 2,(claims 3-4) and n is 4(claims 9-10), and R is hydrogen.
